## File Copying Grades

**Grade A, Standard:** Originals are large, rubber-banded sections or loose documents of straight copy. Originals must be in excellent condition, one-sided, using the same size paper with no staples, clips, or folder tabs.

**Grade B, Light:** Originals consist of large, stapled or clipped sections. Occasional small sections of stapled or clipped documents may be mixed in, but not to the extent of slowing down copy output. Also included in this category would be all work that is two-sided, even if it is straight copy. If three or more copies of this grade are requested on the same order, the job will be adjusted one grade down.

**Grade C, Medium:** Originals with primarily stapled or clipped sections of letter and legal size, including copying of file folders and file tabs. Typically, there will be no fewer than six pages per staple or clip. This category also includes binders that require removal and reinsertion. If three or more copies of this grade are requested on the same order, the job will be adjusted one grade down.

**Grade D, Heavy:** Originals as described in Grade C above, but with small, stapled and clipped sections of five or fewer pages of mixed sizes, such as receipts, envelopes, statements, etc. Originals may have multiple sticky notes to be removed and replaced. If three or more copies of this grade are requested on the same order, the job will be adjusted one grade down.

**Grade E, Glass Work:** Originals which require greater than 50 percent placement by hand, such as receipts, statements, checks, envelopes, odd-sized originals, and extremely poor quality originals that require extensive handling on a page-by-page basis. If three or more copies of this grade are requested on the same order, the job will be adjusted one grade down.
